

# Image File

The diagram illustrates the structure of an Image File. It is represented as a vertical stack of seven rectangular sections, each with a black border. From top to bottom, the sections are labeled: 'Header', 'Segment 1', 'Segment 2', 'Segment 3', 'Relocation Table', 'Debug Table', and 'Signature'. To the left of the stack, there are two large curly braces. The first brace spans the 'Header', 'Segment 1', and 'Segment 2' sections. The second brace spans the 'Segment 3', 'Relocation Table', and 'Debug Table' sections. The 'Signature' section is at the bottom and is not bracketed.

Header

Segment 1

Segment 2

Segment 3

Relocation Table

Debug Table

**Signature**
